Phagwara, Punjab

<https://github.com/Aryaman499>

SUMMARY

A dedicated individual who enjoys, thinking out of the box, with a mind full creativity and eagerness to learn about machine learning and natural language processing along with analysis and predictions. Always ready to push the bars of learning to gain knowledge and always curious to analyze things.

TECHNICAL SKILLS

Programming languages:
Python

Data Management:
MySQL, Tableau

POWER SKILLS

- Curious and creative
- Imaginative and Innovative
- Initiates conversation with others
- Inquisitively solves problem

EXTRA CURRICULAR ACTIVITIES

- UGC Hackathon
- District Cricket Tournament
- District Kabaddi Tournament

HOBBIES

- Writing and composing
R.A.P

PROJECTS

- Spam And Ham Detection March 23
Domain: Natural Language Processing and Machine Learning
Language: Python
 - Cleaned and visualized the data.
 - Used NLP libraries for preprocessing the data.
 - Naïve Bayes algorithm used to predict whether the main is a 'Spam' or a 'Ham'.
- Breast Cancer Prediction Jan' 23
Domain: Machine Learning | Languages: Python
 - Aim: To detect that a person is suffering from cancer or not.
 - Training the model for the prediction of cancer using machine learning.
 - The accuracy of the model was 98%.
- Agricultural Crop Production in India Oct' 22
Domain: EDA | Programming Languages: Python
 - Cleaned the data and took out observation from the dataset.
 - Analyzed the production of crop and visualized using graphs.

CERTIFICATE

- Python basic (HackerRank)
- SQL basic (HackerRank)

EDUCATION

- B.Tech. in Computer Science Apr '20 - Present
Lovely Professional University | Phagwara, IN
CGPA 7.48
- Senior Secondary Jun '19 - Mar '20
St. Joseph's Convent School | Khandwa, IN
CGPA 7.55
- Higher Secondary Jun'17-Mar'18
